Subject: Action required to follow up on the second meeting of the Conference of the Parties to the Minamata Convention on Mercury, Geneva, Switzerland, 19-23 November 2018

Dear,

We refer to the letter Ref: CO2/MC/FOLLOW-UP/DEC2018 on the above mentioned subject.

In that regard we inform you that according the data of Nature and Environmental Protection Agency we identified **waste water system/treatment** as potentially relevant point source categories of release in water for witch draft guidelines on methodologies for the preparation of the inventories should be developed.

Yours sincerely,
