

## WORKSHOP PROCEEDINGS

---

FIRST ANGLOPHONE AFRICA WORKSHOP IN SUPPORT FOR THE RATIFICATION AND  
EARLY IMPLEMENTATION OF THE MINAMATA CONVENTION ON MERCURY  
23 TO 25 APRIL 2014 – NAIROBI, KENYA

---

1. The first sub-regional workshop organized for Anglophone African countries in support for the ratification and early implementation of the Minamata Convention on Mercury was held at the United Nations Complex in Gigiri, Nairobi from 23 to 25 April 2014. It preceded a second workshop organized for Anglophone African countries at the same venue the week after from 28 to 30 April 2014. Convened by the Interim Secretariat of the Minamata Convention thanks to the generous support from the Government of China and other donors, this workshop gathered representatives from ten Anglophone African countries, IGOs and NGOs active in the sub-region.
2. The workshop was attended by 35 participants, including 20 Government representatives, 12 representatives from intergovernmental organizations and 3 from non-governmental organizations. The following countries were represented in the workshop: Ethiopia, the Gambia, Kenya, Liberia, Nigeria, Rwanda, Sierra Leone, South Sudan, Sudan and Uganda. The full list of participants is available in annex 2.
3. The objectives of the workshop were to further enhance participants' knowledge of the Minamata Convention and the processes for its signature, ratification and early implementation. It also aimed at providing participants with information on the available sources of support and at creating opportunities for exchange and action at the sub-regional level. By the end of the workshop, each participating country had prepared a draft national roadmap for the ratification and early implementation of the Convention. The programme of the workshop is available in annex 1. Additional information, including UNEP presentations for download, will be available at [www.mercuryconvention.org](http://www.mercuryconvention.org).

Background information:

*In its resolution on arrangements in the interim period, the Conference of Plenipotentiaries on the Minamata Convention on Mercury held from 10 to 11 October 2013 in Kumamoto, Japan called upon States and regional economic integration organizations to take, as soon as possible, the domestic measures necessary to enable them to meet their obligations upon ratification and thereafter to ratify, accept, approve or accede to the Convention with a view to its entry into force as soon as possible. The Conference further requested the Executive Director of UNEP to facilitate activities at regional and country level to support implementation during the interim period in an effective and efficient manner. In response to this request, UNEP is conducting a series of workshops in the interim period until the Convention enters into force to assist countries in their process towards ratification and early implementation of their obligations under the Convention.*
