

WORKSHOP PROCEEDINGS

SUB-REGIONAL WORKSHOP FOR SOUTH AMERICAN COUNTRIES IN SUPPORT FOR THE RATIFICATION AND EARLY IMPLEMENTATION OF THE MINAMATA CONVENTION ON MERCURY – 2 TO 4 SEPTEMBER 2014 – BRASILIA, BRAZIL

1. The sub-regional workshop organized for South America countries in support for the ratification and early implementation of the Minamata Convention on Mercury was held at the Hotel Grand Bittar in Brasilia, Brazil, from 2 to 4 September 2014. Convened by the Interim Secretariat of the Minamata Convention thanks to the generous support from the Government of Brazil and other donors, this workshop gathered representatives from ten South American countries, as well as IGOs, NGOs and other observer organizations active in the sub-region.
2. The workshop was attended by 58 participants, including 30 Government representatives, 16 representatives from intergovernmental organizations, 9 from non-governmental organizations and 3 from other organizations as observers. The following countries were represented in the workshop: Argentina, Bolivia, Brazil, Chile, Colombia, Ecuador, Guyana, Paraguay, Peru and Uruguay. The full list of participants is available in annex 2.
3. The objectives of the workshop were to further enhance participants' knowledge of the Minamata Convention and the processes for its signature, ratification and early implementation. It also aimed at providing participants with information on the available sources of support and at creating opportunities for exchange and action at the sub-regional level. On Thursday 4 September, participating countries presented the draft national roadmap for the ratification and early implementation of the Convention that they prepared during the course of the workshop. The programme of the workshop is available in annex 1. Additional information, including UNEP presentations for download, is available at www.mercuryconvention.org.

Background information:

In its resolution on arrangements in the interim period, the Conference of Plenipotentiaries on the Minamata Convention on Mercury, held from 10 to 11 October 2013 in Kumamoto, Japan called upon States and regional economic integration organizations to take, as soon as possible, the domestic measures necessary to enable them to meet their obligations upon ratification and thereafter to ratify, accept, approve or accede to the Convention with a view to its entry into force as soon as possible. The Conference further requested the Executive Director of UNEP to facilitate activities at regional and country level to support implementation during the interim period in an effective and efficient manner. In response to this request, UNEP is conducting a series of workshops in the interim period until the Convention enters into force to assist countries in their process towards ratification and early implementation of their obligations under the Convention.
