INFORMATION ON THE PARTY

1. Information on the party

Name of party
Djibouti

Date on which its instrument of ratification, accession, approval or acceptance was deposited
September 23, 2014

Date of entry into force of the Convention for the party
August 16, 2017

2. Information on the national focal point

Full name of the institution
Department of Environment and Sustainable Development / Ministry of Environment and Sustainable Development

Title of National Focal Point
Deputy Director and Focal Point

Name of National Focal Point
Idriss Ismael Nour

Mailing address
South Industrial Zone, Commune of Boulaos
Djibouti

Telephone number
00 253 21 35 10 20 / 00 253 21 95 10 97

Fax number
(Empty)

E–mail
distri_play@yahoo.fr

Second E–mail

3. Information about the contact officer submitting the reporting format if different from the above

Focal Point is submitting the national report

- Information is submitted by the national focal point
- Information is submitted through the national focal point by the contact officer

▼ ART. 3: MERCURY SUPPLY SOURCES AND TRADE

3.1. Does the party have any primary mercury mines that were operating within its territory at the date of entry into force of the Convention for the party?

- Yes
- No

Additional information on this question if needed
{Empty}

3.2. Does the party have any primary mercury mines that are now in operation that were not in operation at the time of entry into force of the Convention for the party?

- Yes
- No

3.3. Has the party endeavoured to identify individual stocks of mercury or mercury compounds exceeding 50 metric tons and sources of mercury supply generating stocks exceeding 10 metric tons per year that are located within its territory?

- Yes
- No

If the party answered No above, please explain.
The MIA report which is being finalized pointed out that there is no stockpile of mercury.

3.4. Does the party have excess mercury available from the decommissioning of chlor-alkali facilities?

- Yes
- No

3.5. *Has the party received consent, or relied on a general notification of consent, in accordance with article 3, including any required certification from importing non-parties, for all exports of mercury from the party’s territory in the reporting period?
ART. 4: MERCURY-ADDED PRODUCTS

4.1. Has the party taken any appropriate measures to not allow the manufacture, import or export of mercury-added products listed in Part I of Annex A of the Convention after the phase-out date specified for those products?

☐ Yes  ☐ No  ☐ Yes (implementing paragraph 2 of article 4)

If no, has the party registered for an exemption pursuant to article 6?

☐ Yes  ☐ No

4.3. Has the party taken two or more measures for the mercury-added products listed in Part II of Annex A in accordance with the provisions set out therein?

☐ Yes  ☐ No

4.4. Has the party taken measures to prevent the incorporation into assembled products of mercury-added products whose manufacture, import and export are not allowed under article 4?

☐ Yes  ☐ No
4.5. Has the party discouraged the manufacture and the distribution in commerce of mercury–added products not covered by any known use in accordance with article 4, paragraph 6?

☐ Yes
☐ No

If no, has there been an assessment of the risks and benefits of the product that demonstrates environmental or health benefits? Has the party provided to the secretariat, as appropriate, information on any such product?

☐ Yes
☐ No

Part E – Additional comments on the article in free text if the party chooses to do so

{Empty}

▼ ART. 5: MANUFACTURING PROCESSES IN WHICH MERCURY OR MERCURY COMPOUNDS ARE USED

5.1. Are there facilities within the territory of the party that use mercury or mercury compounds for the processes listed in Annex B of the Minamata Convention in accordance with paragraph 5 of article 5 of the Convention?

☐ Yes
☐ No
☐ I do not know

5.2. Are measures in place to not allow the use of mercury or mercury compounds in manufacturing processes listed in Part I of Annex B after the phase–out date specified in that Annex for the individual process?

CHLOR–ALKALI PRODUCTION

☐ Yes
☐ No
☐ Not applicable (do not have these facilities)

ACETALDEHYDE PRODUCTION IN WHICH MERCURY OR MERCURY COMPOUNDS ARE USED AS A CATALYST

☐ Yes
☐ No
☐ Not applicable (do not have these facilities)
5.3. Are measures in place to restrict the use of mercury or mercury compounds in the processes listed in Part II of Annex B in accordance with the provisions set out therein?

<table>
<thead>
<tr>
<th>VINYL CHLORIDE MONOMER PRODUCTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐ Yes</td>
</tr>
<tr>
<td>☐ No</td>
</tr>
<tr>
<td>☐ Not applicable (do not have these facilities)</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>SODIUM OR POTASSIUM METHYLATE OR ETHYLATE</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐ Yes</td>
</tr>
<tr>
<td>☐ No</td>
</tr>
<tr>
<td>☐ Not applicable (do not have these facilities)</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>PRODUCTION OF POLYURETHANE USING MERCURY–CONTAINING CATALYSTS</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐ Yes</td>
</tr>
<tr>
<td>☐ No</td>
</tr>
<tr>
<td>☐ Not applicable (do not have these facilities)</td>
</tr>
</tbody>
</table>

5.4. Is there any use of mercury or mercury compounds in a facility using the manufacturing processes listed in Annex B that did not exist prior to the date of entry into force of the Convention for the party?

| Yes |
| ☐   |
| No  |

5.5. Is there any facility that has been developed using any other manufacturing process in which mercury or mercury compounds are intentionally used that did not exist prior to the date of entry into force of the Convention?

| Yes |
| ☐   |
| No  |

Part E – Additional comments on the article in free text if the party chooses to do so
ART. 7: ARTISANAL AND SMALL-SCALE GOLD MINING

7.1. Have steps been taken to reduce, and where feasible eliminate, the use of mercury and mercury compounds in, and the emissions and releases to the environment of mercury from, artisanal and small-scale gold mining and processing subject to article 7 within your territory?

☐ Yes
☐ No
☐ There is no artisanal and small-scale gold mining and processing subject to article 7 in which mercury amalgamation is used in the territory

7.2. Has the party determined and notified the secretariat that artisanal and small-scale gold mining and processing within its territory is more than insignificant?

☐ Yes
☐ No

Part E – Additional comments on the article in free text if the party chooses to do so

{Empty}

ART. 8: EMISSIONS

8.1. Identify any Annex D source categories for which there are new sources of emissions of mercury or mercury compounds as defined in paragraph 2 (c) of article 8.

- Coal-fired power plants
- Coal-fired industrial boilers
- Smelting and roasting processes used in the production of non-ferrous metals
- Waste incineration facilities
- Cement clinker production facilities

Has the party required the use of best available techniques or best environmental practices (BAT/BEP) to control and where feasible reduce emissions for new sources no later than 5 years after the date of entry into force of the Convention for the party?

☐ Yes
☐ No
Please explain
It should be noted that Djibouti is preparing its MIA report which is being finalized. What emerges from this document, among other things, is the establishment of an effective legal framework (development of adequate legislation (standard)) and targeted capacity building of the various actors concerned, particularly with regard to the application of BAT/BEP.

Attach relevant documentation
{Empty}

8.2. Identify any Annex D source categories for which there are existing sources of emissions of mercury or mercury compounds as defined in paragraph 2 (e) of article 8.

For each of those source categories, select and provide details on the measures implemented under paragraph 5 of article 8 and explain the progress that these applied measures have achieved in reducing emissions over time in your territory:

▼ COAL–FIRED POWER PLANTS

☐ A quantified goal for controlling and, where feasible, reducing emissions from relevant sources
☐ Emission limit values for controlling and, where feasible, reducing emissions from relevant sources
☐ Use of BAT/BEP to control emissions from relevant sources
☐ Multi-pollutant control strategy that would deliver co-benefits for control of mercury emissions
☐ Alternative measures to reduce emissions from relevant sources

Progress
{Empty}

CEMENT CLINKER PRODUCTION FACILITIES

- A quantified goal for controlling and, where feasible, reducing emissions from relevant sources
- Emission limit values for controlling and, where feasible, reducing emissions from relevant sources
- Use of BAT/BEP to control emissions from relevant sources
As part of this work, an inventory of emissions from relevant sources was carried out. It should be noted that Djibouti is preparing its MIA report which is being finalized. As part of this work, an inventory of emissions from relevant sources was carried out.

8.3. Has the party prepared an inventory of emissions from relevant sources within 5 years of entry into force of the Convention for it?

- Yes
- No
- Have not been a party for 5 years

If no such inventory exists, please explain

It should be noted that Djibouti is preparing its MIA report which is being finalized. As part of this work, an inventory of emissions from relevant sources was carried out.

8.4. Has the party chosen to establish criteria to identify relevant sources covered within a source category?

- Yes
- No

8.5. Has the party chosen to prepare a national plan setting out the measures to be taken to control emissions from relevant sources and its expected targets, goals and outcomes?

- Yes
- No

Part E – Additional comments on the article in free text if the party chooses to do so

{Empty}
ART. 9: RELEASES

9.1. Are there, within the party’s territory, relevant sources of releases as defined in paragraph 2 (b) of article 9?

- Yes
- No
- I do not know

9.2. Has the party established an inventory of releases from relevant sources within 5 years of entry into force of the convention for it?

- Yes
- Relevant sources do not exist in the territory
- Have not been a party for 5 years
- No

Please explain
It should be noted that Djibouti is preparing its MIA report which is being finalized. As part of this work, the inventory of releases from relevant sources was carried out.

Part E – Additional comments on the article in free text if the party chooses to do so

{Empty}

ART. 10: ENVIRONMENTALLY SOUND INTERIM STORAGE OF MERCURY, OTHER THAN WASTE MERCURY

10.1. Has the party taken measures to ensure that the interim storage of non-waste mercury and mercury compounds intended for a use allowed to a party under the Convention is undertaken in an environmentally sound manner?

- Yes
- No
- I do not know

Part E – Additional comments on the article in free text if the party chooses to do so

{Empty}

ART. 11: MERCURY WASTES
11.1. Have measures outlined in article 11, paragraph 3, been implemented for the party’s mercury waste?

- Yes
- No

11.2. Are there facilities for final disposal of waste consisting of mercury or mercury compounds in the party’s territory?

- Yes
- No
- I do not know

Part E – Additional comments on the article in free text if the party chooses to do so

{Empty}

▼ ART. 12: CONTAMINATED SITES

12.1. Has the party endeavoured to develop strategies for identifying and assessing sites contaminated by mercury or mercury compounds in its territory?

- Yes
- No

Please elaborate
In general, it is important to note that the determination/identification or even the assessment of contaminated sites requires adequate funding. To prepare such a strategy, it is essential to have the necessary funds.

Part E – Additional comments on the article in free text if the party chooses to do so

{Empty}

▼ ART. 13: FINANCIAL RESOURCES AND MECHANISM

13.1. Has the party undertaken to provide, within its capabilities, resources in respect of those national activities that are intended to implement the Convention in accordance with its national policies, priorities, plans and programmes?

- Yes
- No
Please specify
Djibouti is an LDC and has limited financial resources to deal with various environmental challenges such as drought, climate change, loss of biodiversity, etc.

Please provide comments, if any.
{Empty}

13.2. Supplemental: Has the party, within its capabilities, contributed to the mechanism referred to in paragraph 5 of article 13?

☐ Yes
☐ No

Please specify
Djibouti is an LDC and has limited financial resources to deal with various environmental challenges such as drought, climate change, loss of biodiversity, etc.

Please provide comments, if any.
{Empty}

13.3. Supplemental: Has the party provided financial resources to assist developing-country parties and/or parties with economies in transition in the implementation of the Convention through other bilateral, regional and multilateral sources or channels?

☐ Yes
☐ No

Please specify
Djibouti is an LDC and has limited financial resources to deal with various environmental challenges such as drought, climate change, loss of biodiversity, etc.

Please provide comments, if any.
It would be wise to rephrase the last two questions taking into account the specific situation of developing countries and especially LDCs.

Part E – Additional comments on the article in free text if the party chooses to do so

{Empty}

▼ ART. 14: CAPACITY-BUILDING, TECHNICAL ASSISTANCE AND TECHNOLOGY TRANSFER

14.1. Has the party cooperated to provide capacity-building or technical assistance, pursuant to article 14, to another party to the Convention?

☐ Yes
☐ No

Please specify
14.2. Supplemental: Has the party received capacity-building or technical assistance pursuant to article 14?

☐ Yes
☐ No

Please specify
As part of the preparatory work of the MIA, Djibouti received technical assistance from UNEP

Please provide comments, if any.
{Empty}

14.3. Has the party promoted and facilitated the development, transfer and diffusion of and access to, up-to-date environmentally sound alternative technologies?

☐ Yes
☐ No
☐ Other

Please specify
N/A

Part E – Additional comments on the article in free text if the party chooses to do so

{Empty}

▼ ART. 16: HEALTH ASPECTS

16.1. Have measures been taken to provide information to the public on exposure to mercury in accordance with paragraph 1 of article 16?

☐ Yes
☐ No

16.2. Have any other measures been taken to protect human health in accordance with article 16?

☐ Yes
☐ No

Part E – Additional comments on the article in free text if the party chooses to do so
Awareness campaigns have been launched as part of the preparatory activities of the MIA. In particular, a number of technical workshops have been organized both at national and regional level on, inter alia, public awareness, the risks of cosmetic products containing mercury on human health and the environment and the impacts related to burning of all types of waste.

These are one-off and circumstantial measures because they were carried out within the framework of the MIA project.

**ART. 17: INFORMATION EXCHANGE**

17.1. Has the party facilitated the exchange of information referred to in article 17, paragraph 1?

- Yes
- No

*Please provide more information, if any*

{Empty}

**Part E – Additional comments on the article in free text if the party chooses to do so**

**ART. 18: PUBLIC INFORMATION, AWARENESS AND EDUCATION**

18.1. Have measures been taken to promote and facilitate the provision to the public of the kinds of information listed in article 18, paragraph 1?

- Yes
- No

**Part E – Additional comments on the article in free text if the party chooses to do so**

As part of the MIA project, public awareness activities focusing on the effects of mercury on health and the environment were organized.

**ART. 19: RESEARCH, DEVELOPMENT AND MONITORING**

19.1. Has the party undertaken any research, development and monitoring in accordance with paragraph 1 of article 19?

- Yes
- No
Part E – Additional comments on the article in free text if the party chooses to do so

{Empty}

▼ COMMENTS

Part C: Comments regarding possible challenges in meeting the objectives of the Convention (Art. 21, para. 1)

The implementation of the Minamata Convention on Mercury requires technical and financial means to fully meet the provisions of the said convention, for all Parties and particularly for developing countries such as ours. As such, the difficulties encountered can be summarized as follows:

- insufficient resources dedicated to the implementation of the agreement,
- the insufficiency or even the lack of adequate and specific legal texts,
- the difficulty in collecting certain data requested,
- the lack of data for certain sectors,

▼ SUPPLEMENTAL – ADDITIONAL COMMENTS

Supplemental: Part D: Comments regarding the reporting format and possible improvements, if any

- Difficulty unchecking a box to return to the initial state
