First biennial short report for the Minamata Convention on Mercury 2019

Q12 ii. Supplemental: Please provide any related information, for example on the use or disposal of mercury from such stock and sources.

Installation is out of action since 2019. In the Netherlands, all mercury and mercury waste goes to BMT. All mercury from BMT is considered waste and is sent to Remondis in Germany, for stabilisation in preparation to permanent storage. I.o.w: from 2019 on, in The Netherlands, there will be no more mercury sold to markets.

Q13 5. Has the party received consent, or relied on a general notification of consent, in accordance with article 3, including any required certification from importing non-parties, for all exports of mercury from the party's territory in the reporting period? (Para. 6, para. 7.) **No**

Q14 If yes, a. and the party has submitted copies of the consent forms to the secretariat, then no further information is needed. If the party has not previously provided such copies, it is recommended that it do so. Otherwise, please provide other suitable information showing that the relevant requirements of paragraph 6 of article 3 have been met. Supplemental: please provide information on the use of the exported mercury.

Some mercury (0,773 metric tons) was sent abroad by Claushuis in 2018. So not exceeding the 10 or 50 tons threshold (This is why I answer question 5 with a 'no'). See attached file under question 3 for details.

Q15 Kindly attach all relevant information here -

Q16 b. If exports were based on a general notification in accordance with article 3, paragraph 7, please indicate, if available, the total amount exported and any relevant terms or conditions in the general notification related to use. -

Q17 Kindly attach any relevant information here -

Q18 Part E. As per agreed reporting format, Parties are invited to provide additional comments on this article in free text. Kindly use the box below.

From 2019 onward, there will be no more mercury trade as it all comes from BMT which discards the Mercury as waste.

Q19 2. Are there facilities for final disposal of waste consisting of mercury or mercury compounds in the party's territory? **No**

Q20 If yes, if the information is available, how much waste consisting of mercury or mercury compounds has been subjected to final disposal under the reporting period? Please specify the method of the final disposal operation/operations. -
